EARTH CARE inside

Cushioning

With the world's first bio-based foam developed by Hickory Springs, you now have cushioning made using soybean based polyol instead of petroleum based polyol. The result is a product that reduces dependency on oil and takes 60% less non-renewable energy to create. Tests confirm that bio-based foam cushioning retains its initial properties longer and therefore is more durable.

Sinuous Wire Springs

Steel springs are manufactured from 50% or more recycled steel.

Sleeper Mechanisms

70-80% of the steel used to manufacture the sleeper mechanism comes from recycled steel.

Sleeper Mattresses

Innerspring base is manufactured from 50% or more recycled steel. Polyester fiber comfort layers are made from recycled plastic bottles.

Frame

All hardwood frame constructions comply with formaldehyde emission standards and are TPC (Third Party Certified) under EPA TSCA Title VI.

Packaging

Packaging materials consisting of cardboard, nonwoven inner liner and plastic outer liner are 100% recyclable.

CertiPUR-US Certified

All polyurethane foam components are certified to meet content emissions and durability standards of CertiPUR-US.

Flame Retardant

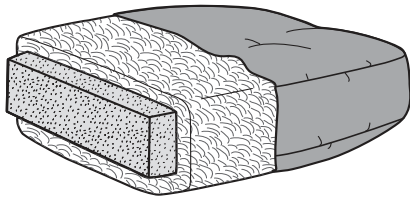

Earth Care products are manufactured without FR chemicals

As part of the ongoing commitment to our environmental initiatives, as of 6/1/14, all products manufactured do not contain fire retardant (FR) in any of the foam based components.

A GREAT NIGHT'S REST STARTS WITH A GREAT SLEEPER!

Take a look at what makes our sleeper the best value in the industry:

- Matching loveseats, chairs and ottomans available on most sleepers
- 2 mattress options—standard innerspring and memory foam
- Locking TV headrest
- Full custom order capabilities—800 fabrics to choose from—any fabric can go on any style!
- Made in America! Taylorsville, NC

MATTRESS OPTIONS:

STANDARD INNERSPRING MATTRESS

- Heat tempered construction for strength and durability
- 299 coils (queen) and 253 coils (full)
- 5 inch mattress thickness
- Quilted damask cover

MEMORY FOAM MATTRESS

- 5 inch mattress thickness
- Responds to body heat and conforms to your body contours for better support
- Supports your body, allowing tense muscles to relax comfortably
- Encourages proper posture, redistributing weight evenly, relieving pressure points
- Breathes, dispersing heat and moisture for fewer night awakenings
- Unique recovering memory foam slowly springs back into shape
- Hypoallergenic

SLEEPER MECHANISM:

- 1 Engineered Low-Profile Linkage**
Keeps all metal parts below the mattress line, while being the easiest in the industry to operate.
- 2 Double-Locking TV Headrest**
Provides added comfort while lounging or watching TV by raising the upper body. To reduce field failures, the headrest also restricts the unit from being cycled while in the “up” position.
- 3 Body-Support Tube and Direct-Attach Wires**
Together they enhance support in the body section to eliminate sagging. The welded offset tube keeps the unit square and enhances unit strength.
- 4 Contoured Seat Section**
Offers a wider seating area by allowing seating close to the arm.

- 5 Optional Seat-Support Wires**
Provides support while sleeping, plus adds durability to the overall unit. Support wires also give the quality feel of stationary seating.
- 6 All-Round Tubular Frame Construction**
Provides a smooth and visually appealing look with improved safety (eliminated pinch points) and comfort in the seated position.
- 7 Pro-Deck™**
Two-ply ballistic decking material enhances durability and visual appeal.
- 8 Dual One-Piece Round Tubular Legs**
Provides enhanced stability and strength, allowing the unit to be operated from the center or side position.
- 9 Anti-Tilt**
A necessary safety feature, keeping the unit in contact with the floor at all times in the open position.
